

What will 380 RV Rentals do?

- Stock the trailer with the items our customers need for a comfortable rental experience.
- Thoroughly inspect and clean the trailer before and after every rental.
- We take care of the entire rental process: creating a trailer-specific guidebook, advertising and all renter interactions.

What do you need to do?

- Agree to let us use the trailer for six (6) months at a time (longer if we both agree it's a good fit!).
- Agree to store the trailer at a location that is convenient to our operation.
- Be responsible for normal RV maintenance (roof repair, items that break/fail as the normal process of owning an RV).
 - We can help! We have trained and dedicated maintenance people that can fix the majority of necessary repairs at a reasonable price.
- Be responsible for maintaining collision/comprehensive insurance.
- Register your trailer yearly with the DMV.

FAQ (Frequently Asked Questions)

Can I change options during our agreement time?

We believe that the six month window is a good balance of commitment without over-committing. Should the need arise during the course of the six months, we are always happy to discuss!

If the changes are good for you, and we can make it work - it's good for us too!

What happens after the six months?

This is a good chance for us to "test" the market to ensure it is what our customers are looking for in a rental. If after six months, we are not able to make the trailer work for our business model, we will need to make changes to the agreement or find another workable solution to keep you happy and our model intact!

Can I cancel during the 6 months?

Always! Unfortunately, there will be cancellations for our customers and we will need to offer deeper-discounted rental substitutes. For this, we will need to charge a fee to ensure we can take care of our customers the way we have promised.

Can you deliver my trailer for my allotted days?

Yes! We are happy to work out delivery with our company vehicle for a fee that is at-cost for us.
